PROFILE

Former software engineering Intern at NSF with experience in building full-stack applications seeking to grow in the fields of data analytics and business intelligence. During my internship at National Science Foundation, I have automated ease access of asset, employee and training data, automated excel generation and developed data processing functions to derive insights from datasets. Skilled in python scripting (pandas and NumPy), Microsoft Excel and Power BI fundamentals. Open to Business Intelligence and Analyst roles.

EDUCATION

BSc (Hons) Industrial Information Technology

Uva Wellassa University, Sri Lanka | 2022 – 2026

Thesis: Assessing the Digital Evidence Handling Process in Sri Lanka and Selected Jurisdictions

SKILLS

Hard Skills

- Python (Pandas, NumPy)
- SQL & PostgreSQL
- MS Excel
- Power BI
- Data cleaning & analysis
- Machine learning basics
- Statistical analysis
- Report automation
- Git & GitHub

Soft Skills

- Analytical thinking
- Attention to detail
- Problem solving
- Self-directed learning
- Team collaboration
- Communication
- Time management
- Strong communication
- Self-disciplined

Experience

National Science Foundation, Sri Lanka

Software Engineering Intern | May – Nov 2025

- Designed a record pool with PostgreSQL database managed around 100 records and developed filtering functions for ease of access.
- Automated monthly assets report generation cutting the preparation time of days under to an hour.
- Wrote Python scripts for data cleaning, processing, and scheduled automation tasks on a Linux server.

PROJECTS

Word Classification Model | Apr – Oct 2024

Python (Pandas | NumPy)

Extracting real-estate keywords from natural language user query. Managed data cleaning, feature engineering and model training while achieving 85% classification accuracy using custom RNN.

Property Listings Database — Daffodil Zone | Aug – Dec 2025

Python | SQL | REST API

Designed a normalized database schema and data retrieval layer for a multi-category listings platform covering land, hotels, and agents. Focused on data structure, query performance, and clean output.

CERTIFICATIONS

Developing AI Applications with Python — IBM | 2026

AWS Cloud Technical Essentials — Amazon Web Services | 2026

Introduction to Python — Kaggle | 2024
